

CREATIVE SCIENCE WRITING ASSIGNMENT

- 1) Choose a scientist on which you can find information.
- 2) Write this paper as if it were an interview, skipping a line between each question/answer.

EXAMPLE:

Q: Mr. Franklin, how did you feel when you discovered electricity?

A: Shocked.

Q: Did you ever find your key?

A: No.

- 3) This paper must be 3 pages long, using only the front of each page.
- 4) This paper will have a cover with the person's name on top in big letters (for example, *An Interview with Ben Franklin*), a picture of some kind that goes along with your topic in the center, and your full name and section along the left side, on the bottom. The cover must be made of the construction paper that I give you.
- 5) This paper will have a bibliography at the end, in the proper format, listing the sources that you used to get your information. You must have a minimum of 2 resources with at least one of them being from the internet. Bibliography sheets are in the media center.
- 6) This paper is due Monday, September 14th.

***The first part of the interview should be biographical, and the rest should be on how and why they discovered what they did.

GOOD LUCK AND HAVE FUN !!!!!!!!!!!!!!!

Mr. Pecharsky
